How does it work?

After booking

Once your booking is confirmed, we'll have a catch-up before your event to go over all the details. I will liaise with both you and your venue (if required) to make sure everything is in place for a smooth set-up on the day.

If you have any questions at any point, please get in touch! I usually respond within 24 hours, and remember - there are no silly questions. Every detail matters when creating a beautiful, illustrated memory of your event.

On the day

1 - As your guests arrive, I'll mingle and introduce myself, taking photographs of anyone who wishes to be illustrated. This is the first stop on their art journey, allowing me to begin live illustrations right from the start - from arrival through the ceremony. Once the energy picks up, guests often wander over to be captured in the moment. Live illustration is always a highlight, and it's a joy to watch people enjoying and sharing their artwork.

2 - After their photograph is taken, guests are free to enjoy the celebrations, returning occasionally to see their illustration as it comes to life.

3 - Throughout the event, I'll be immersed in creating and displaying illustrations, capturing memories, personalities, and the atmosphere for the duration of your chosen package which makes a wonderful talking point for your guests.

4 - Guests receive their illustrations to take home - a unique and lasting keepsake of your event.

Frequently Asked Questions

Does 'number of guests' mean 'number of illustrations'?

This is a question I'm often asked! I quote by the number of guests rather than by illustration numbers, as each person takes around 6–8 minutes to create. On average, I illustrate 8–10 guests per hour (depending on outfit complexity).

Each guest will have the chance to be illustrated once — either individually, or together in family and friendship groups. If time allows toward the end of my booking, I may be able to fit in an extra illustration or two.

For anyone who would like more, guests are very welcome to order additional illustrations after the event, which I complete in my studio and mail directly to them.

What size are the illustrations?

I create illustrations in A6 size - a perfect keepsake, and ideal if you'd like to provide frames for your guests. This format works beautifully for up to three adults, or a small family group of two adults with up to three children.

This is more popular than I realised, Can I adjust my booking to add more time or upgrade my package?

Absolutely! live illustration is always a huge hit with guests! If you'd like to extend your booking or upgrade your package, just let me know as soon as possible. As long as I have availability, we can arrange the upgrade with the additional cost added to your final balance (or sent as a separate invoice if your balance has already been paid).

I recommend getting in touch early to secure the extra time and avoid any disappointment.

Wait! I have more questions.

No problem at all. I welcome any and all questions, and there's truly no such thing as a silly one when it comes to creating your perfect celebration.

Feel free to send me a message or arrange a call, and I'll be more than happy to talk everything through with you.
